

Four Foot Booth Assembly

Step One: Unfold Bottom Frame

Unfold the preassembled frame into a rectangular shape, making sure that the snaps are facing out.

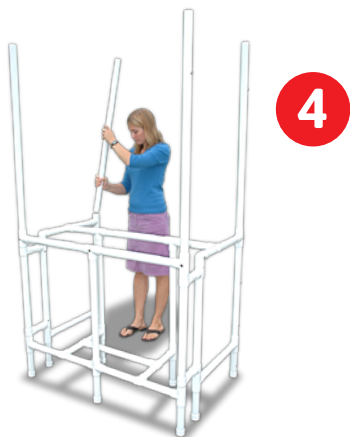

Step Two: Attach Counter Legs

Snap counter legs to the front lower rails of the frame.

Step Three: Attach Counter Braces

Snap the lower counter brace to the horizontal sections of the counter legs. Then slide the upper brace on to the top of the counter legs and snap it to the sides of the frame.

Step Four: Attach Uprights

Insert the four uprights into the corners of the bottom frame. Make sure the snaps are towards the top.

Step Five: Attach Valance Frame

First slide the two side pieces over the uprights, then insert the front cross piece in between them.

6

Step Six: Attach Vinyl

Snap the skirt and valance to the assembled frame.

7

Step Seven: Place Counters

The optional lower under-counter shelf just lays in place atop of the counter legs and lower brace.

Position the counter on the upper brace and the front upper rails of the frame. The Velcro will hold it in place.
